THE White Sulphur Springs property is to be sold at public auction in August next. It will take a million dollars to satisfy the mortgage holders.

Many of the bodies washed ashore from the wreck of the ill-fated steamer Metropolis have been buried along the coast for a distance of ten or more miles from the wreck, and as the survivors have all left the scene, recognition of the dead is

to decline; but, if it were to cease, the deeline would go on.

of reception and has recently come into vogue, and one was held by Mrs. John Jacob Astor last Saturday. "Commerce parties" is another way of entertaining a small number of friends, and can be held in the evening, while the "kettle drum" is an afternoon affair. The "luncheon" is held from 1 to 3 o'clock. Many stylish ladies desire it to be understood that they are at home at luncheon time and are glad to see any of their friends who may honor them with a call. At such times the lady of the house may take the head of the table, and if no gentleman be present her daughter may carve. Young ladies are now often called to this duty, and I have seen one of their number dissect a roast turkey in a very expert manner. At these "luncheons" the eervants are generally sent out of the room as soon as the covers are off, in order to remove any restraint from conversation. There is often more real enjoyment in such a gathering than in a grand party; but the latter is a fixed feature in society, and overy first-class family must give at least one every season. This makes them very abundant at the present time.—New York Letter to Rochester Democrat.

Summer Houses Demolished—Bridges and Road Beds Washed Away-Narrow Escapes, &c., &c.

Long Branch, February 3.—The entire sea front of the southern coast of New Jersey, from the Highlands of Navesink to Squan, is a picture of destruction and desolation: Over \$250,000 damage has been done to the handsome Summer cottage district of Long Branch, and with the exception of the Howland House, not one of the large hotels eccaped. The northeast gale on Thursday and Fridsy swept directly along the coast, making inroads in the embankments, and sweeping all the hotel bulkheads into the ocean. Between the Highlands Station left the scene, recognition of the dead is impossible, and no mark, save stakes at the head and foot of the graves, tell of their last resting place.

THE London Economist has the figures of the eastern absorption of silver for 1877, and claims that it rises to \$20,390, 1877, and claims that it rises to \$20,390, 1870, when silver was 60s61 pence per ounce, to £20,380,000 in 1870, when silver was 60s61 pence per ounce, to £20,380,000 in 1877, when silver was 60s61 pence per ounce, to £20,380,000 in 1877, when silver was 61s55 pence per ounce. Ture report of the Commissioner of Patents, recently submitted to Congress, shows that during the year 1877 the number of new patents issued was 13,619, or in the proportion of one to every 2, 299 people. The receipts, \$732,342, were \$110,190 in excess of the expenditure, and if there's any patent on this procest for right to provide the benefit of certain other branches of the government. As models accumulate at the rate of from twelve to fifteen thousand annually, entailing, with nothing like adequate compensation, considerable ost on the government and the inventor, the Commissioner recommends legislation where the property models may be dispressed with. The bureau was reorganized in 1860. It then, employed one examiner. Now there are eighty-eight. Then the number of employes was seven. Now it is more than 190,000 per annum.

destroyed.

At Far Rockaway there was not much damage except to the bathing-houses. Smith's hotel, on Hog Island beach, was shattered, and all the bathing-houses were swept away. The houses on the bay side of Rockaway Beach were uninjured. Many property holders visited the beach Saturday, and stated that they would put up new buildings without delay. The enlire destruction of property at Rockaway is estimated at about \$30,000.
